

NETWORK JOB OPPORTUNITY

WEB DEVELOPER SYDNEY

Help set the standards for web design and development in Australia!

Not only will you be part of a small vibrant and energetic team, you will also have an opportunity to bring your talented skills into fruition.

iPRIME is part of the Prime Media Group, one of Australia's leading regional media companies. We are looking for a motivated Web Developer, to work with the iPRIME team on the creation of the iPRIME network of websites.

We're after someone who has solid experience working in PHP and an established understanding of web technologies (HTTP, Apache, MySQL). You will also display an excellent understanding of web standards and trends including CSS-driven HTML layouts, DHTML (AJAX, JavaScript, CSS1 & CSS2, DOM and cross-browser compatibility). You must have a minimum of 3 years web application development experience in LAMP and CMS-backed environments, knowledge of Joomla CMS preferred. You must be an excellent communicator with strong organisational skills, have a high attention to detail, a strong work ethic and the ability to work to tight deadlines.

Systems Administration experience is preferred, and applicants with an Open Source development background will be highly regarded.

BS or MS qualification in Computer Science (or equivalent) is essential.

This is a unique opportunity for the right person to make their mark!

If you are interested in becoming an integral part of this outstanding team please forward written applications including covering letter to: -

Kelly McParlane
Operations Manager
Prime Digital Works

Email: kelly.mcparlane@iPRIME.com.au

Applications close 5pm Friday 29 August 2008.

For more information please contact Human Resources on (02) 6242 3700.
